

Card Safe™

The better memory card protector

Card Safe™ Mini

Because of its small size, the Card Safe™ Mini is your everyday companion. All the same, you can store several different memory cards within. The Mini is especially fit for the smaller types of memory cards such as XD, SD, MMC, RS-MMC, SD-Mini and Memory Stick Duo. This makes it the ideal accessory for your MP3-Player or your mobile phone enabling you to carry home even more mobile phone snapshots or listen to more chart hits on the road. The Mini protects the memory cards against humidity, dust and electrostatic charge. Through its transparent window, you can see at a glance, which memory cards are stored where. Fix the Card Safe with the connector at your belt or at you camera bag or keep it trendy with a lanyard.

With the Mini, you can show your colours: available in unobstrusive onyx, blazing neon or the new trend colours ice blue and rosso, the Card Safe™ Mini fits your individual taste.
